

WINTER IS HARD ON HYDRANTS

To ensure optimum performance, we recommend an Inspection in the Fall and the Spring.

NFPA 25 requires one Hydrant Inspection per year, and a Fall Inspection ensures that they have been pumped out properly so they won't freeze.

However, hydrants can be difficult to spot in Winter which puts them at risk of damage from plows and vehicles.

That's why we recommend an additional inspection in the Spring as a best practice.

Customers who choose Semi-Annual hydrant inspections like the fact that repair costs are spread over the year instead of just in the fall. We are also happy to discuss Pre-Approved Repair Amounts so we can perform repairs during the inspection. That saves us a trip and saves you money!

Contact us today to find out how we can help.

Optional Spring inspection Benefits:

- Identifies hydrants needing repairs from winter hazards
- Spreads repair costs across the year
- Pre-Approved Repair Amounts can save you money

National life safety and property protection

FIRE

- Control Panels (small, mid-sized and large system)
- Detection (Smoke detectors, Heat detectors, Fire Alarm Stations)
- Signaling (Horns, Strobes, Speakers)
- Graphic Annunciation
- Central Station Monitoring
- Linear Heat Detection
- Air Sampling detection systems
- Gas Detection

SIGNALING PRODUCTS/ DISTRIBUTOR PRODUCTS

- Audible Signals
- Visual Signals
- Hazardous Location Signals
- Fire Protection Equipment
- Clocks
- Security & Annunciation
- Pushbuttons, Transformers & Utility boxes

- Emergency Lighting & Exit Signs

SPRINKLER

- Sprinkler design, installation & maintenance
- Standpipes
- Fire pumps
- Antifreeze loops
- Kitchen Hoods
- Foam Systems
- Fire Suppression Systems
- Backflows
- Off Road Vehicle Suppression

SERVICE

- Emergency service by certified manufacturer-trained technicians working with sophisticated inspection equipment and comprehensive skills

- Preventive Maintenance agreements that protect your investment and are tailored to your system

- Specialize in fire alarm inspection and repairs, sprinkler systems, backflow devices, fire pumps, central monitoring, security, fire extinguishers, nurse call, communications, emergency lighting, exit signs

SECURITY

- Access control
- Video surveillance
- Intrusion
- Network solutions
- Completely integrated systems
- Monitoring

NURSE CALL & COMMUNICATIONS

- Nurse call

- Emergency Call
- Wander Prevention
- Asset Tracking
- Access Control
- Emergency Voice Paging
- Intercom
- Commercial Sound
- Time Keeping
- Management Reporting
- Redundant Configurations
- Central Station Monitoring

MARINE FIRE & SAFETY

- Fire Protection Systems
- Alarm and Detection
- Portable and Fixed Fire Equipment
- Water Mist Systems
- Self Contained Breathing Apparatus
- Safety Equipment
- Fire Hose & Hydrants
